Dual American and Canadian citizen

Education

Simon Fraser University, Vancouver, Canada

Master of Science in Computing Science

September 2024 - expected June 2026

University of British Columbia, Vancouver, Canada

Bachelor of Arts in Computer Science – Minor in Applied Music Technology

Experience

Simon Fraser University, Burnaby, Canada

Teaching Assistant

September 2024 - Present

- Supported a 185-student introductory course designed for those new to programming. Provided in-lecture assistance, maintained regular communication with students through email. Held office hours to address questions on foundational computing science topics, including pseudocode, data types, recursion, basic algorithms, and elementary Python programming. Assisted in exam preparation by drafting questions and proctoring exams. Conducted grading for assignments and exams, utilizing both manual review and custom scripts I developed to automate parts of the grading process, improving efficiency and feedback consistency.

RedMane Technology, Burnaby, Canada

Senior Software Developer

February 2021 - November 2023

- Supported the exponential increase of client adoption of child welfare and health care benefit software across Canada and the US. Embraced a leadership role to onboard new developers, meet tight deadlines of several concurrent projects, develop and document new processes.
- Developed large-scale applications within .NET framework, using MySQL server, Azure cloud platform, Azure logic apps, integrating external services within the native platform.

Blackberry QNX, Burnaby, Canada

Acoustic Software Developer Intern

May 2019 - December 2019

- Created a set of interactive test frameworks used for the ongoing development and deployment testing of voice-enhancement audio algorithms in embedded software systems, integrated with cloud-based speech recognition and word detection APIs, including AWS Amazon Transcribe, Google Speech-to-Text, as well as CMU Sphinx.
- Programmatically created visualizations of test data to better inform business and technical decisions.

UBC School of Music, Vancouver, Canada

Research Assistant to Professor Ève Poudrier

January 2017 - December 2017

- Used geocoding tools to provide data visualization and perform analysis depicting the geographic timeline of polyrhythmic music.
- Acknowledged contributor to the paper "Modeling Rhythmic Complexity in a Corpus of Polyrhythm Examples from Europe and America, 1900-1950" from the Proceedings of the 15th International Conference on Music Perception and Cognition and the 10th Conference of the European Society for the Cognitive Sciences of Music Conference

Kiwi Collection Inc., Vancouver, Canada

Full-Stack Web Developer Intern

September 2018 - April 2019

- As part of an agile, fast-paced team, implemented significant portions of the site redesign, maintaining adherence to in-house styling guides and coding conventions.
- Worked with designers and product managers to ensure the application's ease of use, accessibility, intuitiveness, informed through user testing feedback and A/B testing results.

UBC School of Music, Vancouver, Canada

Recording and Audio Technician

September 2016 - September 2018

- Worked as a video and audio recording technician to provide secure, reliable access to the School of Music's various events as well as doctoral recitals.
- Responsible for conception of recording configuration, set-up and take down of equipment, video and audio editing, and delivery of recordings to clients.

Volunteer

Graduate Mentor, Vancouver, Canada

SFU Women in Computing Science

September 2024 - Present

- As a graduate mentor in the Women in Computing Science (WiCS) Peer Mentorship Program, I provide guidance to two women graduate students, helping them navigate their academic and career paths in computing science. My mentorship includes one-on-one meetings to discuss academic strategies, career advice, sharing experiences and tips for thriving in SFU's graduate environment. My goal is to empower my mentees to thrive and act confidently in adversarial situations, and I hope to achieve that by sharing personal insights, networking opportunities, and advice on balancing responsibilities.

Vancouver General Hospital, Vancouver, Canada

Wayfinding Volunteer

September 2022 - Present

- Assisted patients in the navigation and understanding of the hospital's layout and functional areas, helping to overcome language and cultural barriers to provide exceptional patient and visitor experiences at VGH.

UBC Blank Vinyl Project, Vancouver, Canada

Live Audio Technician

September 2016 - April 2017

- Volunteered with a student-run organization to plan, set-up, tear down, and monitor live audio for events and concerts, and music festivals.
