

Sarah Jade Pratt

Vancouver, BC

Education

Master of Science in Computing Science, Simon Fraser University

- Burnaby, Canada
- Supervised by Dr. Lawrence Kim

Sep. 2024 -
Aug. 2026
(present)

Bachelor of Arts in Computer Science, University of British Columbia

- Vancouver, Canada
- Minor in Applied Music Technology

Sep. 2016 -
May 2020

Demos & Presentations

SyncFeel: Wearable Multi-Modal Rhythm Stimulation for Attention Enhancement

- Demo Presentation, ACM UIST Student Innovation Contest (SIC), Busan, South Korea
- DOI: <https://dl.acm.org/doi/10.1145/3746058.3758974>

Sep. 2025

CrowdSound: Live Data Sonification of Streamer Chat Logs

- In-Class Research Demonstration, Simon Fraser University

May 2025

ConvoBuddy: Facilitating Conversation Entry

- [2025 SFU CS Diversity Awards](#) shortlisted presentation

Apr. 2025

Research Experience

Graduate Research Assistant, Simon Fraser University, School of Computing Science

- Conducted research in the area of tangible user interfaces and user interface design under the supervision of Dr. Lawrence Kim. Leading the development of a novel embodied directional-audio system, implementing full ROS/MoveIt/RViz pipelines for beam-steering, motion planning, and interactive control, contributing toward an upcoming peer-reviewed submission.
- Conducted a gesture elicitation study (n=15) to derive a consensus gesture set for directional audio control, analyzing qualitative and quantitative data to inform system design and experimental follow-ups.

since Sep.
2024

Undergraduate Research Assistant, University of British Columbia, School of Music

- Applied geocoding and temporal visualization methods to analyze the geographical evolution of polyrhythmic music traditions. Contributed analytic work acknowledged in a published paper at ICMPC/ESCOM 2018, supporting corpus-level studies of rhythmic complexity.
- Gained experience in computational analysis, interdisciplinary research, and linking quantitative methods with cultural and cognitive inquiry.

Jan. 2017 -
Dec. 2017

Teaching Experience

Teaching Assistant: Social Issues and Communication Strategies in Computing Science, Simon Fraser University

since Jan.
2025

- Mentored 180 engineering/CS students in technical writing, ethical argumentation, and audience-focused communication through individualized feedback, written and verbal.
- Evaluated and provided detailed critique on 300+ written and oral assignments, strengthening students' clarity, structure, and analytical reasoning. Supported rubric calibration and assessment standards across sections, developing expertise in scientific communication

Head Teaching Assistant: Introduction to Computing Science and Programming, Simon Fraser University

Sep. 2024 -
Dec. 2024

- Supported instruction for 185+ students learning foundational computing concepts (algorithms, recursion, problem-solving, debugging) and Python programming; provided in-lecture assistance, helped develop midterm/final exams, and coordinated distribution of course materials.
- Evaluated 700+ assignments and exams, developing custom grading scripts that automated marking workflows, improved feedback consistency, and reduced turnaround time.
- Led in-lecture and office hours support and troubleshooting for Python environments, algorithmic reasoning, and shell-based workflows

Professional Experience

Software Developer, RedMane Technology LLC

Feb. 2021 -
Jun. 2024

- Developed large-scale case management features for government and social-service agencies, improving workflow efficiency, data integrity, and system reliability across multi-year deployments.
- Translated complex stakeholder requirements into technical implementations, collaborating with designers, PMs, and non-technical teams to enhance product usability.
- Diagnosed and resolved critical production issues—including rapid restoration of a major outage—strengthening skills in debugging, systems engineering, and high-stakes problem solving.

Acoustic Software Developer Intern, Blackberry QNX

May 2019 -
Dec. 2019

- Built interactive test frameworks for evaluating embedded voice-enhancement algorithms, integrating AWS Transcribe, Google Speech-to-Text, and CMU Sphinx for automated speech analysis.
- Created data-driven visualization tools to surface acoustic performance metrics and guide engineering and product decisions.
- Enhanced iterative testing workflows, contributing to more efficient and rigorous algorithm development cycles.

Recording and Audio Technician Work Study, UBC School of Music

Sep. 2016 -
Sep. 2019

- Provided secure and reliable access to recordings of concerts, recitals, and events for the UBC School of Music.
- Designed recording configurations, managed equipment setup/takedown, and performed audio/video editing to deliver high-quality media to clients.

- Strengthened technical skills in signal flow, audiovisual production, and systematic workflow management.

Awards & Recognitions

Special Recognition Prize , Mila - Quebec Artificial Intelligence Institute, Hackathon Championing AI for good: <i>Building safer AI for youth mental health</i> , in collaboration with Bell Canada, Buzz HPC and Kids Help Phone (KHP) ○ Cash prize total value \$250	Mar. 2026
Nominated Finalist for Graduate Student Leadership Award , Simon Fraser University, School of Computing Science	Mar. 2026
Professional Development Grant , Simon Fraser University, Graduate Student Society ○ Funding for Spring 2026 total value \$500	Jan. 2026
Graduate Fellowship , Simon Fraser University, School of Computing Science ○ Funding for Summer 2025 total value \$1663	Sep. 2025
Go Global Award: Global Seminar Programs , University of British Columbia ○ \$1000 award given to cover travel expenses to the University of the Philippines for the Interactive Performance Systems collaborative project	Nov. 2019
Dean's List , University of British Columbia ○ Students who complete at least 27 percentage-graded credits in a Winter Session, and who achieve an average of 85% or higher on at least 27 of these credits.	Sep. 2016 - May. 2020
Outstanding International Student Award , University of British Columbia ○ Award of \$8,000, merit-based entrance scholarship awarded to qualified students when they are offered admission to UBC	Sep. 2016 - Apr. 2017
